## HVAC UNITS

### FEATURES 60Hz:

- 3.5 ton
- 5 ton
- 12.5 ton
- 25 ton

### Cobalt's HVAC Units:

- With a capacity of 3 to 25 tons (60Hz), these comfort coolers are ideal for providing air conditioning in large interior or tented areas.
- The units are delivered and operated with the same high level of expertise as other Cobalt equipment.
- A direct replacement for the customer's equipment, or any job where return air is preferred. Turn it on and set the desired temperature.

### HVAC Performance Add-Ons:

- Hi/Low Temperature Ducting: Venting for portable heaters & A/C; exhausting engine fumes
- Diffusers/Flo Vent: Positive pressure ventilation; diffuser tubing, slides under tent wall.

- User friendly controls
- Variable air volume
- Forklift slot provided in the skid for safe handling in staging areas.
- 3-Phase 208 volts:
  - 23kW – 54 kW Heat Strip
  - 30 AMPs A/C – 80 AMPs A/C
